**Instructor:** Dr. Peter Rigby

**Course:** SOEN 490 – Software Engineering Capstone Project

**Date:** 30/10/2014

## Sprint 1

### LANGLEAP-50: As an admin I want a database model.

**Description:** The product owner would like to have a data model to hold all the information for the website.

**Tasks:**

LANGLEAP-52 Create the design for the models

LANGLEAP-53: Create the actual models.

**Story Points:** 13

**Priority:** Major

**Risk:** High

**Pass/Fail:**

**Stakeholder comments:**

### LANGLEAP-25: As a product owner, I want to get an idea of what the design of the final product would look like.

**Description:** The product owner would like to have a prototype so that he could test out his idea with potential customers.

**Tasks:**

LANGLEAP-26: Create a mock-up of the video player.

LANGLEAP-27: Create a mock-up of the flash cards.

LANGLEAP-28: Create the mock-up of the quiz.

LANGLEAP-29: Create a mock-up of the list to select videos to play.

LANGLEAP-30: Create a mock-up of the script.

LANGLEAP-31: Figure out the flow for language-leap.

**Story Points:** 20

**Priority:** Major

**Risk:** Low

**Pass/Fail:**

**Stakeholder comments:**

### LANGLEAP-6: As a product owner, I want to test out my idea that space repetition combined with videos is an effective and fun way to teach english.

**Description:** The product owner wants to have a prototype to be able test his/her idea with potential users to determine if space repetition with viewing videos is an effective and fun way to teach a language.

**Tasks:**

LANGLEAP-21: Create a quiz for every complex word that may not be understood by medium level English speakers.

LANGLEAP-22: Create a screen to display the script.

LANGLEAP-24: Create a flash card for every word.

LANGLEAP-32: Create functionality to select complex words from the script screen.

LANGLEAP-54: Create main prototype framework

LANGLEAP-55: Create a select video screen.

LANGLEAP-56: Create functionality to embed Youtube videos

**Story Points:** 5

**Priority:** Major

**Risk:** Medium

**Pass/Fail:**

**Stakeholder comments:**

## Sprint 2

**LANGLEAP-33: As an Admin, I want to be able to CRUD videos.**

**Description:** An administrator would like to be able to create, view, update, and delete videos in the application from the administrative interface, in order to be able to manage all videos.

**Tasks:**

LANGLEAP-62: Allow the admin to update, remove, or modify a video.

LANGLEAP-63: Create an admin interface

**Story Points:** 13

**Priority:** Major

**Risk:** Medium

**Pass/Fail:**

**Stakeholder comments:**

**LANGLEAP-36: As a User, I want to be able to select a video.**

**Description:** A user wants to be able to filter down and select videos that they would like to watch.

**Tasks:**

LANGLEAP-58: Create accordion filter and style it.

LANGLEAP-59: Display content - Media, Videos, Season, Episode, etc.

LANGLEAP-60: Implement the API of the accordion

<b>Story Points:</b> 20	<b>Priority:</b> Major	<b>Risk:</b> Low
<b>Pass/Fail:</b>		
<b>Stakeholder comments:</b>		

## Sprint 3

<b>LANGLEAP-37: As a User, I want to be able to watch a video.</b>		
<b>Description:</b> The user should be able to watch videos on the website with basic player controls (play, pause, etc...).		
<b>Tasks:</b> LANGLEAP-61: Create the video player. LANGLEAP-78: Handle requests for resources (such as videos).		
<b>Story Points:</b> 20	<b>Priority:</b> Major	<b>Risk:</b> High
<b>Pass/Fail:</b>		
<b>Stakeholder comments:</b>		

<b>LANGLEAP-46: As a User, I want to be able to view flashcards.</b>		
<b>Description:</b> The user should be able to view flashcards of his misunderstood words from the script.		
<b>Tasks:</b> LANGLEAP-69: Style the flashcards and create front end. LANGLEAP-70: Create the API for the flashcards.		
<b>Story Points:</b> 8	<b>Priority:</b> Major	<b>Risk:</b> Medium
<b>Pass/Fail:</b>		
<b>Stakeholder comments:</b>		

<b>LANGLEAP-35: As an Admin, I want to be able to CRUD flashcards.*</b>		
<b>Description:</b> The admin should be able to create, remove, update and delete flashcards through the admin interface.		

**Tasks:**

LANGLEAP-76: Style and create front-end.

LANGLEAP-77: Create the API for modifying and deleting.

**Story Points:** 8

**Priority:** Major

**Risk:** High

**Pass/Fail:**

**Stakeholder comments:**

**LANGLEAP-34: As an Admin, I want to be able to CRUD scripts.\***

**Description:** The admin should be able to create, remove, update and delete scripts through the admin interface. This includes defining words, timestamps and speakers/actors from the script.

**Tasks:**

LANGLEAP-64: Allow the admin to upload, remove, or modify a script.

LANGLEAP-65: Allow the admin to insert definitions for words in the script.

**Story Points:** 8

**Priority:** Major

**Risk:** High

**Pass/Fail:**

**Stakeholder comments:**

**LANGLEAP-4: As a User, I would like to be quizzed on words I don't understand.\***

**Description:** The user should be quizzed on the misunderstood words from the script using a multiple-choice format.

**Tasks:**

LANGLEAP-71: Create the quiz style and front.

LANGLEAP-72: Create the API for the quiz.

**Story Points:** 20

**Priority:** Major

**Risk:** Low

**Pass/Fail:**

**Stakeholder comments:**

**LANGLEAP-2: As a User, I want to be able to select words I don't understand**

**from a script.\***

**Description:** The user should be able to select words that are not understood from the script.

**Tasks:**

LANGLEAP-66: Allow the user to pick words that he does not understand.

**Story Points:** 3

**Priority:** Major

**Risk:** High

**Pass/Fail:**

**Stakeholder comments:**
